

RALPH JAYCO V. URRUTIA

WEB DEVELOPER

Valenzuela, Metro Manila, Philippines | 09701706636 | urrutiaralphjayco07@gmail.com

Portfolio: <https://shr-jayco.github.io/Jayco-Portfolio/>

Objective

Information Technology graduate specializing in bridging the gap between creative design and robust technical execution. Proficient in manual system testing, quality assurance, and building responsive web applications using modern frontend tools. Backs every project with structured test plans and meticulous attention to detail to ensure seamless performance, reliability, and user-centered interfaces.

Skills & abilities

Programming & Markup Languages: HTML, CSS, Java, VB.NET

Frameworks, Libraries & Tools: Three.js, Figma, Spline, Claude, 21st Dev

Quality Assurance & Testing: Manual Testing, Bug Tracking, Test Plan Creation & Execution

Experience

CAPSTONE PROJECT | Web Based Point-of-Sale (POS) System

- Developed comprehensive Test Plans and Test Cases to identify, document, and track software defects bugs for resolution.
- Collaborated with the development team to refine system logic and user interface (UI) based on testing results to improve overall performance.

Projects

Datamex College of Saint Adeline – School Website:

- Developed an interactive school website featuring a 3D architectural showcase of the campus and a responsive user interface.
- Performed thorough manual testing and bug fixing to ensure cross-browser compatibility and smooth navigation.

Tooth Fairy Dental Clinic – Clinic Website:

- Designed and built a clean, modern clinic platform focused on user experience, patient appointment booking flows, and responsive layouts.

Brown & Bloom Coffee – Coffee Shop Website:

- Develop a clean, aesthetic website focused on brand storytelling, menu display, and Customer Inquiries.

Certificates

- Web Development Seminar: Focused on foundational concepts, HTML, and CSS structure and design.
- Game Fest 2024: "From Imagination to Reality" participation certificate.
- Project Loons Seminar: Active participation, technical cooperation, and collaborative learning engagement.

Education

Bachelor of Science in Information Technology
Datamex College of Saint Adeline
